If you’re signed into Google Chrome, then you can “SAVE AS GOOGLE DOCS” OR you may click on “PRINT AS A WORD DOCUMENT”.
***IMPORTANT!! Do not just “copy and paste” without it in a Word document or google docs first.
- Step #11.** When your Works Cited has been opened in a Word document, make sure you have a minimum of 3 sources.
- Step #12.** Add your last name and page number in the upper right corner. SAVE.
- Step #13.** If this is your Rough Draft, add the words ROUGH DRAFT to the centered title so it looks like this:
- Works Cited—Rough Draft
- Step #14.** If it’s your rough draft: Print it out. Look it over. Compare it to the example & make sure it’s formatted the same way.
- If it’s your final draft: Copy and paste your Works Cited page to the document where your final paper is saved. Make your Works Cited page begin ON A NEW BLANK PAGE *after* your paper (so it’s the last page of your paper). Make sure that the page # goes in order of where you left off in your paper. **For example, if your paper extends over pages 1-2, then your Works Cited Page should be page 3---check your heading in upper right hand corner!)
